

Château MOULIN DU CADET

Saint Emilion Grand Cru Classé

This charming vineyard, run by Isabelle and Pierre Blois-Moueix, is located on a limestone plateau at the entrance of Saint Emilion, with its notoriety, the wines of Moulin du Cadet have been appreciated for more than a century. In fact, in 1867, during the World's Fair in Paris, it was one of the estates that got awarded a gold medal. Since 2002, in order to preserve the vineyard and to better the staff's working conditions, as well as allowing the soil to express its best qualities, the vineyard has been run organically (Agrocert certificate). In 1996 some of the plots were even run bio-dynamically, and as of 2005 it has become the standard practice for the entire vineyard (**Biodivin Ecocert certificate**). Alain Moueix, Isabelle's brother, with his rigor and his international experience, brings the best expression of Moulin du Cadet from this wonderful soil: the delicate silkiness from the limestone and the subtle force from the clay.

The Vineyard

Vineyard created:..... 18th century
 Position: North of Saint Emilion on the limestone plateau of the Cadet.
 Surface area:..... 5 hectares
 Soil Type:..... Plateau and slopes with limestone and clay
 Grape variety: 100% merlot
 Average age of vines:..... 35 years old

The Winemaking method

Constructed in 1991 in the old traditional method of building, the elegant cellar overlooks the vineyard. The harvest date is carefully chosen to obtain the best maturity for the skin and to keep the mineral freshness of the fruit. After a meticulous sorting of the grapes, berry by berry, the alcoholic fermentation is conducted during 2 to 4 weeks through a temperature control process in concrete tanks. After, the wine is aged in French oak barrels during 12 to 18 months.
